

Slavery and Human Trafficking Statement **for the financial Year ending December 31st 2017**

“The Company” means Berry Recruitment Group

Continued Statement of Intent

As part of our culture of good governance for good business, the Company operates to a set of core values which reflect our relationships with our customers, shareholders, suppliers and team members. We adopt a behavioural value for all our business relationships, reflecting our attitude to the exploitation of individuals in any form, and more particularly the offences under the Modern Slavery Act 2015. We are committed to opposing modern slavery in all its forms and preventing it by whatever means we can. We demand the same attitude of all who work for us and expect it of all with whom we have business dealings.

Monitoring & Review

Within 2017 our robust Anti-Slavery and Human Trafficking Policy has resulted in continued increased understanding and increased awareness across both the Company and our supply chain.

Internally, information surrounding the Act has been regularly circulated amongst all employees and continues to be a key part of our induction processes for new staff.

In addition our zero-tolerance approach to modern slavery has been communicated to all suppliers, contractors and business partners at the outset of our business relationship with them and reinforced as necessary.

As part of this policy we have now completed the process of inviting all of our key suppliers to supply their own Anti-Slavery and Human Trafficking Policies to ensure that they are aligned with our own. Responses have been collated and in the case of a supplier having no policy we have included this information in our own risk assessments to determine which suppliers are more at risk of modern slavery so that efforts can be made to work with them to ensure compliance. Upon the renewal of supplier contracts we are including contractual provisions for our suppliers to confirm their adherence to our modern slavery policy.

As part of our own tender process we now include modern slavery questions and invite potential suppliers to confirm the measures taken by them to ensure that modern slavery is not occurring within their business.

Other actions taken in 2017

In addition to the above, we have had no reported incidents through our confidential feedback line in 2017. This is a dedicated line for employees or any other person wishing to raise a concern. We feel that this is an important mechanism to confidentially report concerns and we intend to continue to keep this helpline operational in 2018.
